Pastor's Weekly Devotional – October 4th, 2018 "Just Thinking..."

- Experts said that it was impossible to build a vehicle heavier than air and then fly it. The Wright Brothers shattered that belief.
- Experts said that it was impossible to fly to the moon. Neil Armstrong shattered that belief.
- Experts said that it was impossible to break the sound barrier in flight. Test pilot Chuck Yeager shattered that belief.
- Experts built the Titanic. It was deemed unsinkable; but it sunk. An ordinary man built an Ark; it stayed afloat.

Now, if another human being has proven the experts wrong, think about God. The Bible says "nothing is impossible with God." You can <u>trust</u> Him today. You can <u>thrust</u> yourself upon Him and you will discover that "He is an ever-present Help in the time of trouble."

Have a blessed week! Pastor Sewdin
